The Alpaca Warmth Project started out as a result of reading "A Purpose Driven Life" by Rick Warren a while ago and praying about what my purpose would be. I always assumed it would have something to do with the fiber our alpacas produced, but didn't understand how God wanted me to use it until recently. One day, the idea just came to me that we should provide yarn to other helping hands who could turn it into items for the homeless and make this a group effort for our community.
